

TR800 play

Demarcation / Bar fencing

Garda TangoRail Railings are a self-raking railing systems, the flexibility of the panels follow the ground contours providing optimum site safety and security.

The TR800 play is made from vertical tubular bars with horizontal rails, manufactured to RoSPA guidelines ideal when safe systems have to be considered as there are no head, neck or finger traps.

TR800 play is available from 900mm to 1800mm high supplied with the CHS (circular hollow section) post.

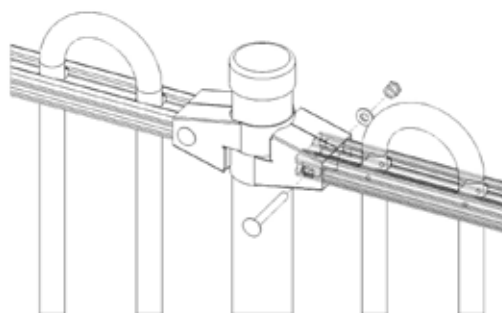

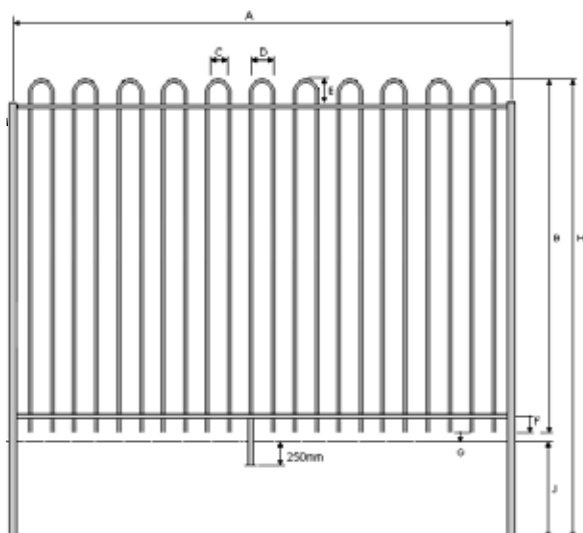

The panels are attached to the posts using a unique post lock arrangement. The non-welded design provides a speedy installation, adjustments can easily be made on site.

TangoRail's exclusive non-welded design enables the panels to be assembled after coating; this means each component of the panel can be supplied in different colours. Various colour combinations are available to brighten and suit all perimeters.

- **Added safety – no stepping**
- **No head, neck or finger traps**
- **Self-raking system – no need for stepped panels and fewer posts**
- **Perfectly smooth finish**
- **Eco friendly system - non-welded with low amount of zinc**
- **Reduced installation and manufacturing time**
